

TYPES of LASTIK GEL

how to identify them & everything else you need to know

CLEAR LASTIK

Stick and Stay Gel

BIAB - BUILDERS/RUBBER BASE

An easy and convenient flexible 'rubber' builder gel, great for adding strength to flakey, thin, splitting & brittle nails. A thicker consistency gel with excellent adhesion, multiple uses and that soaks off using acetone.

COLOURED BIAB - BUILDERS/RUBBER BASE

Coloured versions of clear Lastik, with transparencies ranging from 50-85% and available in nudes, pastels and milky whites.

ONE COAT COLOUR/RUBBER BASE

Lastik colour gels offer highly pigmented one coat colour with intense durability that won't chip, lift or peel, offering superior adhesion.
